Precautions

Don't get excited when you catch cold nd have symptoms of influence.

Don't get excited when you catch cold and have symptoms of influenza. Take things as easy as you can. Send for your doctor and take a dose of a good verstable laxative, such as Dr. Carter's K. & B. Tea or Celery King. It is most important that the bowels act freely.

While waiting for the doctor rub Mustarine on throat and chest. This is good advice, as any druggiet will tell you, and besides atopping the achies and pains that may be present will subdue the internal inflammation. Doctors prescribe Mustarine for ton-cilitie, sore throat, pleurisy, bronchitie and chest colds. Just rub it on. It will not blister, and it is far better than a mustard plaster and is always ready to use.

In the American League the prospect for a fierce fight between the reformers and the stand patters is growing more and more certain. There is a strong element which falement which falement
